LARGE WIND ENERGY SYSTEM PERMIT APPLICATION

Pursuant to Town of Springdale Ordinance 07-10-3, a permit and Town Board approval shall be required for the installation of a large wind energy system. A large wind energy system is defined as a wind energy system that is used to generate electricity, has a nameplate capacity of 100 kilowatts or more, and has a total height of 100 feet or more.

Along with completed application and permit fee (\$100), please submit a plot plan which contains the following elements:

- Property lines and physical dimensions of the property;
- Location, dimensions, and types of existing major structures on the property;
- Location of the proposed wind system tower and equipment shed;
- Right-of-way of any public road that is contiguous with the property;
- Any overhead utility lines;
- System specifications (manufacturer, model, rotor diameter, tower height and type, etc.);
- Foundation and tower blueprints; and
- Reclamation plan in case of abandonment.

APPLICANT INFORMATION

Name: _____ Date: _____

Address: _____

Phone: _____ Email: _____

Application and fee shall be submitted to the administrator/clerk at least two weeks prior to the next Town Board meeting (3rd Tuesday). Applicant shall agree to reimburse the Town for any reasonable attorney, engineering, and/or building inspector fees relating to application review and issuance. Applicant agrees to read and comply with all aspects of the Town’s Ordinance 07-10-3. Permit is valid for 36 months from date of approval.
